## PREFACE.

SACRED Scripture informs us that all the duties of christain churches, should be performed with decency and in order---Music being one of those duties, and a pleasing science, is, when properly improved, equally beneficial to society and individuals, as it has a tendency to reconcile discordant hearts and unite them in the social bands of friendship---it qualifies us to take an active part in that delightful exercise which is the brightest ornament of religious worship---it raises in the breast the most noble feelings, and is a pleasing resource in the trying hour of affliction ;

# INTRODUCTION to PSALMODY.

## The GAMUT.

**I**S the scale of Musical Notes. It consists of seven distinct degrees of sound, viz. Five whole tones, and two semi or half tones, which are called an *Octave*. They are represented on five lines and spaces, by the seven first letters of the alphabet, arranged as follows:

BASS.		COUNTER.		TENOR, or TREBLE.
B	—	Mi.	A	La.
A	—	I.a.	G	Sol.
G	—	Sol.	F	Fa.
F	—	Fa.	E	La.
E	—	I.a.	D	Sol.
D	—	Sol.	C	Fa.
C	—	Fa.	B	Mi.
B	—	Mi.	A	La.
A	—	La.	G	Sol.
G	—	Sol.	F	Fa.
F	—	Fa.	E	La.
			D	Sol.

The scale is divided into three parts, each of which, consisting of five lines with their spaces, is called a *Stave*, and distinguished with a cliff.

The first is called the *Bass* stave—its cliff is called the *F Cliff*, and is marked thus:  It is placed on the uppermost line but one, and gives to the line its name.

The second is called the *Counter* stave, the cliff, marked thus,  is called the *C Cliff*, and is placed on the middle line, which is also called the *C line*. This cliff is by some authors considered as moveable to any of the five lines or spaces, in which case it always carries the *C* with it.

The third is called the *Tenor and Treble* stave; its cliff is called the *G Cliff*, marked thus,  and is fixed on the second line from the bottom, which is called the *G line*.

In music there are but four notes representing sounds, their names are mi, fa, sol, la; the principal of which is mi, when that is found, the order of the others in rising, will be fa, sol, la, fa, sol, la, and in falling, la, sol, fa, la, sol, fa, after which in either way, the mi recurs. It hath been before remarked, that of the seven distinct degrees of sound, called tones, two are semi or half tones; their natural places are between B and C, and E and F. They are, however, often placed differently by flats and sharps, which transpose mi from B, its natural place; in all which cases, the semi or half tones, will be between mi and fa, as in the natural scale.

### R U E L S for finding the MI.

Its natural place is in	B	If F be sharp, mi is in	F
But if B be flat, mi is in	E	If F and C be sharp, mi is in	C
If B and E be flat, mi is in	A	If F C and G be sharp, mi is in	G
If B E and A be flat, mi is in	D	If F C G and D be sharp, mi is in	D
If B E A and D be flat, mi is in	G	If F C G D and A be sharp, mi is in	A
If B E A D and G be flat, mi is in	C	If F C G D A and E be sharp, mi is in	E
If B E A D G and C be flat, mi is in	F	If F C G D A E and B be sharp, mi is in	B
If B E A D G C and F be flat, mi is in	B		

### A T A B L E of the T R A N S P O S I T I O N of the MI.

Mi on B, its natural place. <i>Tenor or Treble.</i>	B flat Mi on E.	B and E flat Mi on A.	B, E and A flat Mi on D.	B, E, A and D flat Mi on G.	F sharp Mi on F.	F and C sharp Mi on C.	F, C & G sharp Mi on G.	F, C, G and D sharp mi on D.
<i>Counter.</i>								
<i>Bass.</i>								

The mi is always a fourth above, or a fifth below, the last added flat; and when governed by sharps, it is always on the last sharp.

MUSICAL NOTES *with their RESTS.*

Rests are notes of silence, indicating a pause or silence for the length of time required for the notes they represent. The semibreve rest is also used for filling a bar, in all moods of time.

The following SCALE will show the PROPORTION the NOTES bear to each other.

## MUSICAL CHARACTERS.

## EXPLANATION.

**A FLAT**, placed at the beginning of a tune or strain, regulates the mi, and when before a note, sinks it half a tone.  
**A Sharp** also regulates the mi, and when placed before a note, raises it half a tone.  
**A Natural**. The property of this character is to counteract the two foregoing characters, respecting the tone of the notes only, except when placed at the beginning of a new strain; in which case its effect is to restore the mi also to its natural place. Neverthe-

less when a tune begins with two or more flats or sharps, and one or more of them are restored with this character through all the parts, the residue will be in their full force.

The important uses and effects of these three characters should be critically explained by every teacher, and as carefully attended to by every learner of music.

*Point of Addition*

This placed on the right hand of a note, makes it half as long again as it would otherwise be,

*Point of Diminution*

This point either over or under any three notes, reduces them to the time of two.

*Single Bars.*

These are used to divide certain quantities of notes or rests between each, according to the mode of time to which the tune is set.

*Double Bars.*

These denote the end of a strain.

*Repeats,*

Either of these characters denote that the notes standing between them, are to be sung a second time.

*A Slur,*

Drawn over or under any number of notes, denote their belonging to one syllable.

*A Braee.*

Both of these are used to determine the number of parts which move together.

*A Hold.*

This character shews that the note over which it is placed, should be dwelt upon something less than a beat longer than its true time.

This is added when the notes ascend or descend two places above or below the five lines.

Is a warbling of the voice on the note over which it is placed ; this, although one of the graces of music, had better be omitted than unskilfully attempted.

These shew that the notes over which they are placed are to be distinctly and emphatically sung.

This is placed at the end of a stave, to point to the place of the first note in the next stave.

Denotes a repeat ; and that you are to sing the note under figure 1 before the repeat, and omit it when repeating, and sing that under figure 2, unless connected with a slur, in which case both must be sung repeating.

Shews the end of a tune.

Are placed directly over each other, and shew that either or both may be sung at pleasure, if there are performers enough on the part which contains them.

Are small intermediate notes, their design is to aid the voice gracefully in a transition from one note to the other ; the former of these is annexed to a succeeding, and the latter to a preceding note ; the time given to them is always taken from the note to which they are attached.

Of TIME, and its various MARKS or MOODS.

There are three sorts of time used in music, viz. Common Time, Triple Time, and Compound Time.

Common Time is divided into four moods. The first is called *Adagio*, and is marked thus:  It contains one semibreve, or the amount thereof in other notes or rests, in each bar. Four seconds of time are usually allow  ed to the bar.

The second mood is called *Largo*, and marked thus :  This contains the same quantity of notes in a bar as the first, but is performed in one quarter less time.

The third is called *Allegro*, and thus marked :  This mood, likewise, contains the same quantity of notes in each bar as the preceding moods, but is performed in the time of  two seconds to a bar.

The fourth mood of Common Time contains the amount of one minim in a bar, and is marked with figures thus :  It is performed about one quarter faster than the Allegro.

Triple Time is divided into  three moods, the first of which, contains three minims in a bar, or other notes and rests to the same amount, and is marked thus :  This is performed in the time of three seconds to the bar.

The second mode is marked thus,  and contains three crotchets or their amount in a bar, and is performed about one quarter faster than the former.

The third mode contains the amount of three quavers in a bar, and is thus marked :  It is performed about a quarter faster than the second.

Compound Time Moods,  contains to the amount of six crotchets in a bar, and is performed in the time of two seconds,

 contains to the amount of six quavers in a bar, and is performed one quarter faster than the former. There are several other moods, but as they are not in common use they are only set down, 3-16 :: 6-16 :: 9-4 :: 9-8 :: 9-16 :: 12-4 :: 12-8 :: 12-16 Observe that the lower figures 2, 4, 8, &c. in all the forementioned moods, denote the composition to be the measure of such like moods as will make one bar in common time.

Here it may not be improper to notice, that the four moods of Common Time are measured by even numbers ; as for example, 2, 4, 8, &c. Those of Triple time by odd numbers ; as for example, 3, 6, 9, &c. and Compound Time by an even number of beats in a bar, with an odd number of notes to each beat ; as for example, three crotchets, three quavers, &c. But the first mood of Common Time, is the standard, by which all the other moods of time are measured and regulated. The moods marked with figures, are derived from, and have a primary reference to that ; for example, the mood marked with the figures 2-4, denotes the bar to contain two fourths of a bar, or semibreve, in the first mood of Common Time. Thus all the other moods, distinguished with figures, are to be considered as fractional parts of a semibreve, in the first mood of Common Time ; the lower figure shewing into how many parts the semibreve is to be divided, and the upper figure the number contained in the bar.

The foregoing moods having been sufficiently explained and understood ; the others marked with figures, will easily be comprehended.

## Of BEATING.

No person should sing a solo or any other strain which belongs to a different part, without particular desire. Any number of notes driven through bars, should be sounded full and smooth when flured, without jirking or jumping, so as to prevent graceful singing: opening the mouth freely, but not too wide, gently warbling the sound in the throat from one tone to another till the slur is finished. In beating time, great care is necessary that the hand does not influence the voice by beating misplaced accents, which is almost an universal error. For the first and second moods of common time, observe, first, lightly strike the ends of your fingers, secondly, the heel of your hand, thirdly, raise your hand a little, and fourthly raise it still higher, which completes the bar. The triple time moods, should be beat as the two first moods of common time, omitting the last beat. The third and fourth moods of common time and the moods of compound time, have each two equal motions of the hand.

## Of SYNCOPATION.

NOTES of Syncopation have their sound continued through bars, or are placed out of their natural order.

## Of ACCENT.

THIS is a certain stress of voice upon the accented or emphatical words and syllables: In Common Time, the accent is placed on the first and third parts of the bar; in Triple, only upon the first; but in Compound Time, it is placed on the first and fourth parts: It however often happens that the emphatical words or syllables fall upon the parts of the bar which are unaccented, in which case the music must conform to the emphasis, and the general rules for accenting give way.

## Of the KEYS of MUSIC.

THERE are but two Keys in Music, viz. C, the Major or Sharp Key, and A, the Minor or Flat Key. The last note of the Bass is the key note, and is always the next above or below mi; or otherwise, if the last note of the Bass be fa, it is a sharp, if la, a flat Key. The first is suited to express the cheerful passions, the latter the mournful and pathetic.

## E X A M P L E S.

A, Minor Key.

C, Major Key.

The regular places for the semitones, as has been before observed, are between B and C, and E and F, as are marked in the foregoing example. The first, third, fifth and sixth, above the Major Key, are a semitone higher than those of the Minor Key. No tune can be regularly formed on any other than these, without the aid of flats or sharps at the beginning.

### SCALE of SEMITONES.

Key note,

The Counter or C Cliff, being used by many authors and compilers of music, is set down in the foregoing Rules; but as there are in this Collection many tunes with two Trebles, the authors make use of the Tenor Cliff.

This musical score consists of four staves. The first staff is the vocal line, featuring a melody with various note values and rests, including a triplet of eighth notes. The second staff is the vocal line with lyrics. The third and fourth staves are accompaniment parts, likely for piano or organ, with a bass line and a treble line. The music concludes with a double bar line.

## Detroit. P. M.

Come thou fount of ev'ry blessing, I tune my heart to sing thy praise; Streams of mercy never ceasing, Call for songs of loudest praise.

This musical score consists of four staves. The first staff is the vocal line, starting with a treble clef and a 5/4 time signature. The second staff is the vocal line with lyrics. The third and fourth staves are accompaniment parts, with the third staff in treble clef and the fourth in bass clef, both in 6/4 time. The music concludes with a double bar line.

The first system of the musical score consists of four staves. The top two staves are for the vocal line, and the bottom two are for the piano accompaniment. The key signature is one sharp (F#) and the time signature is 2/4. The music begins with a treble clef and a key signature of one sharp. The vocal line starts with a melodic phrase, followed by the lyrics: "Buly curious thirly fly, Drink with me and drink as I; Freely welcome to my cup,". The piano accompaniment provides a rhythmic and harmonic foundation, featuring eighth and sixteenth notes.

Buly curious thirly fly, Drink with me and drink as I; Freely welcome to my cup,

The second system of the musical score continues the piece with four staves. The vocal line and piano accompaniment continue from the first system. The lyrics for this system are: "Could't they sip and sip it up, Make the most of life you may, Life is short and wears a - way." The music concludes with a final cadence on the piano accompaniment.

Could't they sip and sip it up, Make the most of life you may, Life is short and wears a - way.

The first two staves contain the lyrics: "heav'nly land from ours, Sweet fields beyond the swelling flood, Stood dress'd in living green,". The next two staves contain the lyrics: "So to the Jews old Canaan flood, While Jordan roll'd between." The music is written in a style typical of 18th or 19th-century hymnals, with various note values, rests, and phrasing slurs. The paper shows signs of age, including some staining and wear.

## Alarm. C. M.

Why do we mourn de-part-ing friends, Or shake at Death's alarms, 'Tis but the voice which Jesus lends To call them to his arms.

MOD.

Hearts of stone, relent, relent. Break by Jesus' cross subdu'd, See his body, mangled rent, Cover'd with a gore of blood, Sinful soul, what hast thou done,

Murder'd God's e - ter-nal Son.

( 2 )

Yes our sins have done the deed  
Drove the nails that fix him here,  
Crown'd with thorns his sacred head,  
Pierc'd him with a foldier's spear,  
Made his soul a sacrifice,  
For a sinful world he dies.

( 3 )

Shall we let him die in vain?  
Still to death pursue our God?  
Open tear his wounds again  
Trample on his precious blood?  
No; with all our sins we part,  
Saviour take my broken heart.
